

WASP

The world's first Bio-Based electric scooter

01

EXECUTIVE SUMMARY

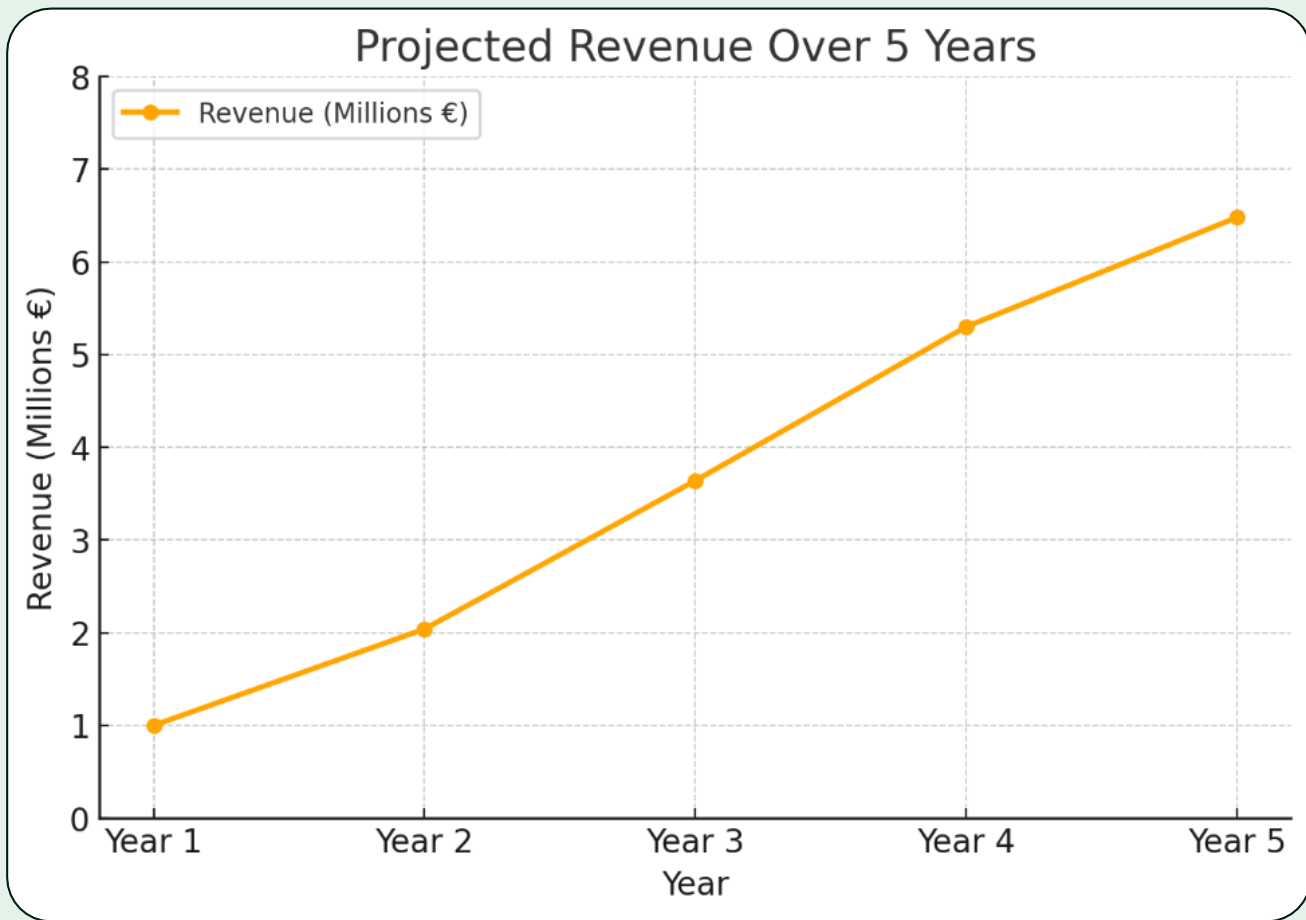

We are **Wasp**, and we are seeking 300,000€ to fund production, brand development, and market entry in major urban centers.

With projected revenues of 10.800.000€ by Year 5, our focus on **sustainability** and **high-end design** uniquely positions us for strong profits in the rapidly growing green transport industry.

To attract and reward our investors, we are offering an exceptional opportunity for a 200% return on investment (ROI) over a 5-year period.

stylish way to travel

03

PRODUCTS AND SERVICES

WASP

Description:

World's first bio-based electric scooter; innovative, sustainable design.

Addressed Needs:

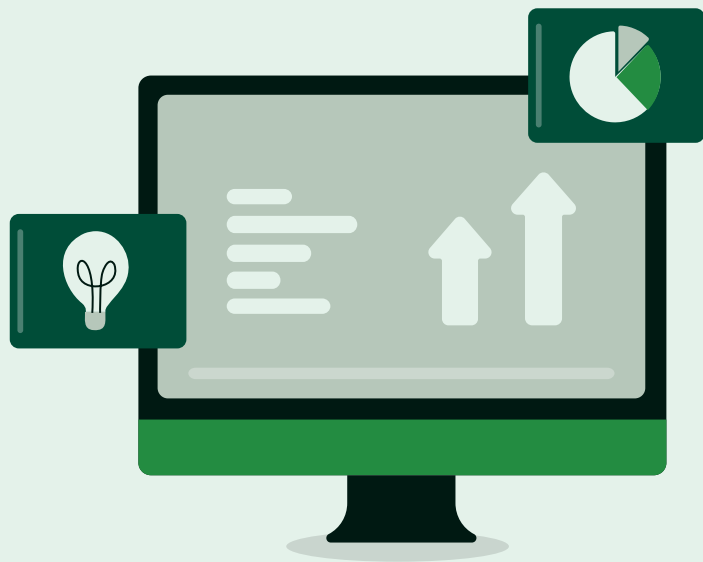

Eco-friendly urban commuting, premium aesthetics, sustainable lifestyle alignment.

Benefits for Customer:

Reduced carbon footprint, high-quality performance, unique brand appeal.

Customer Perception:

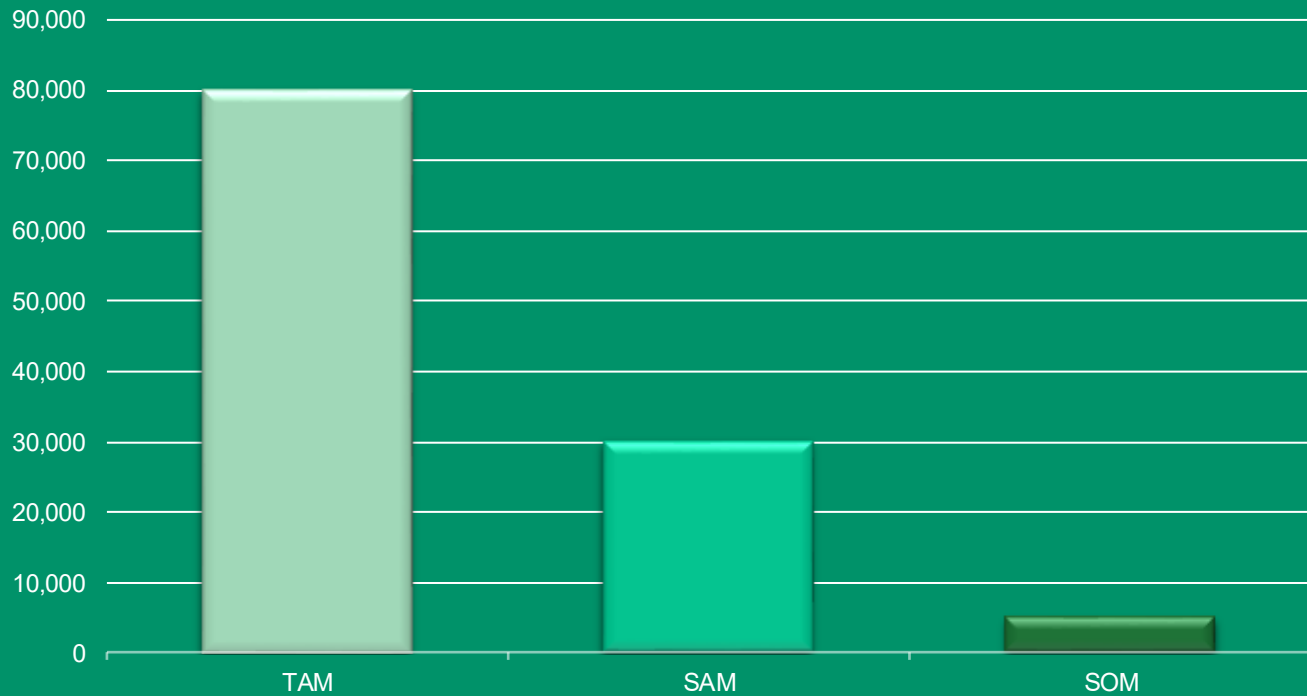

Viewed as luxury, eco-conscious choice; appeals to sustainability-focused urban professionals.

04

MARKET ANALYSIS

TAM/SAM/SOM

Competition:

Given Wasp's premium positioning, competitors are not just other electric scooters but other high-end transportation solutions and brands with a focus on eco-friendly values.

Competitive Advantage:

Wasp's competitive advantage is rooted in its unique use of biobased materials, premium design, and targeted branding approach.

Barriers To Entry:

Regulatory
Requirements

Technological and
Production Challenges

Customer
Loyalty and
Retention

Brand
Building

05

IMPACT

1. Impact For Society

Environmentally
Friendly
transport

Motivation for
change

3. Company Advantages

Building a strong brand

Leading the market

Opportunities for growth

2. Impact For Market

Revolutionary
invention

Modern market
segment

06

KNOW-HOW PROTECTION

Patent Strategy:

Protects bio-based composite technology and unique scooter design.

Trademark:

Strong brand identity, exclusive rights to Wasp name and logo.

Trade Secrets:

Proprietary manufacturing methods, material composition.

Licensing Opportunities:

Potential revenue through selective licensing agreements.

MARKETING AND SALES

Flagship Product Launch

1. Teaser Campaigns
2. Influencer Collaborations
3. Launch Event
4. Targeted Social Media Campaign
5. Urban Pop-Up Events
